

COLBY PEARCE · Front End Software Developer

Littleton, CO • Crpearce892@gmail.com • [LinkedIn](#) • [Github](#)

Frontend developer with experience in JavaScript, CSS, HTML, React, and Test-driven Development. Looking to bring 8 years of problem-solving skills in Procurement and Supply Chain analytics to a fast-paced tech environment.

TECHNICAL SKILLS

- | | | | |
|--------------|-----------------------|----------------|---------------------------|
| • React | • Mocha/Chai/ Cypress | • Knex.js | • Node.js |
| • JavaScript | • Express.js | • Git & Github | • Accessibility Practices |
| • HTML | • PostgreSQL | • GraphQL | • Firebase |
| • CSS | • React Router | • Ux/UI | |

SOFTWARE PROJECTS

First Chair Colorado | [Repository](#) | [Deployed Link](#) | Solo Project | 40 hours 11/2022

React - JavaScript - HTML - CSS - Express.js

- Demonstrated understanding of React, Router and Cypress to deliver a product to a niche audience.
- Created user personas to drive the design and functionality of the app.
- Used PropTypes to confirm all data passed into a component is correctly and specifically identified.

Paw Paths | [Repository](#) | [Deployed Link](#) | Group project | 60 hours 11/2022

JavaScript - HTML - CSS - React - Express.js - Knex.js - PostgreSQL

- Researched and applied Express.js, Knex, and PostgreSQL to build out a backend to store manually created data.
- Connected our deployed backend with a React frontend, implementing Swiper to continue building fundamentals.
- Included media queries for a fully responsive app from phone to full sized monitor.

Rancid Tomatillos | [Repository](#) | [Deployed Link](#) | Group project | 60 hours 10/2022

JavaScript - HTML - CSS - React

- Implemented React Router to keep UI and URL in sync.
- Practiced E2E testing with Cypress, making sure that each component was rendering elements as expected.

EXPERIENCE

Freshpoint, Buyer, Denver, CO 09/2021 – 04/2022

- Raised customer fill rate 2% with improved vendor relationships, allowing local produce buyouts.
- Increased earned income for inbound trucks by 10% with improved relationships with transportation companies.

Vistar, Buyer/Category Analyst, Denver, CO 05/2019 – 07/2021

- Built strategic reports and analysis for Account Managers to maintain earned income and marketing programs.
- Worked with warehouse managers during initial stages of Covid-19 outbreak for inventory mitigation plan.
- Created and established new relationships with vendors during onset of Covid-19 pandemic, facilitating buy backs where possible to minimize potential overstocked inventory.
- Entered, maintained, and audited company wide earned income programs.

EDUCATION

Turing School of Software and Design, Denver, CO 05/2022 - 01/2023

Accredited Frontend Software Engineering Certificate

Colorado State University, Fort Collins, CO 09/2008 - 05/2013

Bachelor's degree in Liberal Arts, minor in Business
